

**Position:**

**Project Manager**

**Major functions:**

Design engineer for pumps, irrigation, cooling water systems, water supply systems 1982-1984  
Project manager and guarantee engineer for pumps, irrigation, cooling water systems, water supply systems 1984-1995  
Design engineer for district heating system 1995-2002  
Project manager for turbines and auxiliary systems 2002-

**Education:**

University of Ljubljana, Faculty of Mech. Eng.,  
B.Sc., 1979

**Experience :**

Leading several projects for irrigation and drainage systems in Middle and Far East (Egypt, Iraq, Taiwan).  
Design and testing of safety of injection pumps for nuclear power plant.  
Design and testing of storage pumps.  
Leading of design and production of small hydro turbines for more than 15 projects.  
Research and development of water turbines auxiliary, drainage and cooling systems.  
Development and engineering of small and micro turbines.
